ARCHIVES OF

OTOLARYNGOLOGY

EDITORIAL BOARD

GEORGE M. COATES, Chief Editor
1721 Pine Street, Philadelphia 3

WESTLEY M. HUNT, New York
RALPH A. FENTON, Portland, Ore.
ERNEST M. SEYDELL, Wichita, Kan.
CHEVALIER JACKSON, Philadelphia
ROBERT L. GOODALE, Boston
J. MACKENZIE BROWN, Los Angeles
CARL H. McCASKEY, Indianapolis

RICHARD J. PLUNKETT, M.D., Chicago, Managing Editor

INDEX TO VOLUME 51
JANUARY-JUNE, 1950

PUBLISHED MONTHLY BY AMERICAN MEDICAL ASSOCIATION, 535 NORTH DEARBORN STREET, CHICAGO 10, ILLINOIS. ANNUAL SUBSCRIPTION, $12.00

Entered as Second Class Matter Jan. 14, 1925, at the Postoffice at Chicago, Under the Act of Congress of March 3, 1879

COPYRIGHT, 1950, BY THE AMERICAN MEDICAL ASSOCIATION

INDEX TO VOLUME 51

The asterisk (*) preceding the page number indicates an original article in the Archives. Subject entries are made for all articles. Author entries are made for original articles and society transactions. Book Reviews and Society Transactions are indexed under these headings in their alphabetical order under the letters B and S, respectively. Only author entries are made for articles for which only the authors and titles are included in the Society Transactions.

Abnormalities and Deformities: See under names of organs and regions
Abscess: See under names of organs and regions as Brain; Mediastinum, etc.
Accommodation: See Eyes, accommodation and refraction
Acid, Ascorbic: See Ascorbic Acid
  Cevitamic: See Ascorbic Acid
  Nicotinic: See Nicotinic Acid
Acrylic: See Resins
Air Passages: See Respiratory Tract
  pressure changes and barotrauma resulting from decompression and recompression in middle ear of monkeys, *378
Alcoholism; caustic stenosis of esophagus, 441
Alfaro, V. R.: Palatal myoclonus; report of 3 cases, *65
Allergy: See Anaphylaxis and Allergy
de Almeda, H. R.: Influence of electric punch card machines on human ear, *215
Altmann, F.: Histologic picture of inherited nerve deafness in man and animals, *852
American Academy of Ophthalmology and Otolaryngology home study courses offered, 763
Analgesia: See Anesthesia
Anaphylaxis and Allergy: See also Asthma; Food, allergy; Hay Fever; etc.
  allergy of ear, with classification and new treatment of labyrinthine hydrops by dehydration, *582
  delayed pneumonia and urticaria following bronchography, 931
  importance of allergy in ear, nose, and throat conditions, 131
  intranasal application of buffered tripelennamine (pyribenzamine) solution in allergic rhinitis, 623
  neuro-allergy in childhood, 626
  survey of ragweed pollination in New York metropolitan district in 1947, 627
Anatomy: See under Nose
Anderson, J. R.: Tracheobronchial aspiration following tonsillectomy with general anesthesia, *699
Anesthesia [cocaine] in endoscopy, 132
  tracheobronchial aspiration following tonsillectomy with general anesthesia, *699
  use of sodium pentothal anesthesia in adult tonsillectomies, 440
Anesthetics: See Anesthesia
Angina, Vincent's: See Fusospirochetosis
Anomalies: See under names of organs and regions as Cochlea; etc.
Anson, B. J.: Development of otic capsule in region of surgical fenestration, 633
Antibiotics: See also Streptomycin; etc.
  in treatment of diseases of ear, nose and throat, 932
Antireticular Cytotoxic Serum: See Otolaryngology
Antrum: See Maxillary Sinus
Aphasia, relative auditory, 936
Apparatus: See also Instruments
  radium treatment of lymphoid tissue of nasopharynx and pharynx; new universal applicator, 452
Apparatus—Continued
  safe and efficient cleansing device for nasopharyngeal radium applicator, 439
  Vincent's angina—treatment with penicillin by atomizer, 440
Arachnoid; arachnoiditis of otitic origin, 127
Arachnoiditis: See Arachnoid
Armed Forces Personnel: See Military Medicine; etc.
Armies: See Military Medicine
Arteries: See Thrombosis; etc.
Articulation: See Speech
Ascorbic Acid, deficiency; Ménière's syndrome; observations on vitamin deficiency as causative factor; general disturbance, *149
Aspiration, tracheobronchial, following tonsillectomy with general anesthesia, *699
Asthma: See also Anaphylaxis and Allergy
  bronchial, clinical and experimental studies with orthoxine in treatment of, 625
Atelectasis: See Lungs, collapse
Atkinson, M.: Ménière's Syndrome; new drug for control of acute attack, *212
  Ménière's syndrome; observations on vitamin deficiency as causative factor; general disturbance, *149
Atopy: See Anaphylaxis and Allergy
Atresia: See under Nose
Aub, J. C.: Recent advances in knowledge of cancer, 457
Audiology; formal report of international audiology conference, 288
  international course in audiology to be held in Stockholm, Sweden, 619
  relationship between clinical psychology and audiology, 274
Audiometry: See Hearing, tests
Audition: See Hearing
Auditory Organ: See Ear
Avitaminosis: See under Vitamins; and under names of deficiency diseases

Bacilli: See Bacteria
Bacteria: See also under Streptococci; etc.
  Fusiformis: See Fusospirochetosis
  Influenza: See Influenza; Meningitis, influenzal
  Klebsiella: See Bacteria, mucosus capsulatus group
  mucosus capsulatus group; acute otitis media due to klebsiella pneumoniae treated with chloramphenicol (chloromycetin®), *420
  proteus vulgaris meningitis, 283
BAL; untoward effects of newer drugs, 285
Ballance-Duel Operation: See Paralysis, facial
Ballanger, J. J.: Heating of human maxillary sinus by microwaves, *678
Barotrauma: See Air, pressure
Basedow's Disease: See Goiter, exophthalmic
Begley, J. W., Jr.: Origin and treatment of osteomas of paranasal sinuses, *750
Behcet's syndrome: See Stomatitis, aphthous
Benadryl®; untoward effects of newer drugs, 285
Bender, M. S.: Fracture of stomach magnet; unusual and interesting case of fracture of magnet in attempted removal of foreign body from stomach, *616
Biotherapy: See Otitis Media
Blood, hematology, 769
  pressure, low; blood pressure changes in fenestration surgery, 632
  proteins; experimental study of local use of gamma globulin in treatment of common cold, 145
Boeck's Sarcoid: See Sarcoidosis
Bones: See also under names of bones

Bones—Continued
Conduction: See Deafness; Hearing, tests
Diseases: See Osteitis
Fractures: See under Temporal Bone
radiologic study of mastoid bone in infants in conjunction with anatomic and pathologic investigations, 439

Book Reviews:
Allergy in Relation to Otolaryngology; F. K. Hansel, 462
Atlas der Augenkrankheiten; R. Thiel, 638
Audiology: Science of Hearing, Developing Professional Specialty; N. Canfield, 463
Blakiston's New Gould Medical Dictionary; edited by H. W. Jones; N. L. Hoerr, and A. Osol, 779
Bronchography; E. Huizinga and G. J. Smelt, 946
Clinical Audiology; M. Saltzman, 461
Fundamentals of Otolaryngology: Textbook of Ear, Nose and Throat Diseases; L. R. Boies, 638
Hearing Tests and Hearing Instruments; L. A. Watson and T. Tolan, 461
Life-Situation-Speech-Reading, as Clinical Treatment; L. M. Moore, 947
Névralgies du glosso-pharyngien; M. Deparis, 946
1949 Year Book of Eye, Ear, Nose and Throat; edited by D. Vail and S. J. Crowe, 779
Pollen Slide Studies; G. T. Brown, 639
Public School Audiometry, Principles and Methods; L. A. Dahl, 462
Recent Advances in Oto-Laryngology; R. S. Stevenson, 638
Suppurations chroniques de l'oreille moyenne; R. Maduro with collaboration of C. Chausse, A. Gaston and H. Henrot, 946
Theory of Hearing; E. G. Wever, 462
Bordes-Valls, M.: New neurosurgical approach for treatment of otosclerosis, *96
Brain abscess, *119
Diseases: See Encephalitis
electroencephalography, in diagnosis of hearing loss in very young child, 629
Bronchi; carcinoma cells in sputum and bronchial secretions, 771
Diseases: See Bronchiectasis; Bronchitis
passage of foreign body (foxtail) through bronchus, lung, pleura and thoracic wall, 627
pathology of bronchus, 770
tracheobronchial aspiration following tonsillectomy with general anesthesia, *699
Bronchiectasis, 128
following aspiration of timothy grass, 446
Bronchitis; is local treatment of tuberculosis tracheobronchitis justified? 441
Bronchography: See under Bronchi
Bronchoscopy; role in diagnosis and treatment (symposium—primary carcinoma of lung), 770
role in preoperative diagnosis of carcinoma of lung, 129
Brunner, H.: Superficial epidermoid carcinoma of larynx, *49

Calciferol Therapy: See Lupus vulgaris
Cancer: See also, Bronchi; Ear; Epiglottis; Larynx; Lungs; Nasopharynx; Respiratory Tract; etc.
carcinoma cells in sputum and bronchial secretions, 771
recent advances in knowledge of, 457
Canfield, N.: Bony stenosis of larynx; report of case, 455
Carcinoma: See Cancer
Cardiospasm: See Stomach
Carhart, R.: Clinical application of bone conduction audiometry, *798
Caron, A. L.: Collapsed ala; pathologic physiology and management, *465
Carotid Body; carotid pain, 770
Cardiospasm: See under Stomach
Carriers: See Diphtheria, carriers
Catarrh: See under Otitis Media
Caustics, stenosis of esophagus due to, 935
Cavernous Sinus, Thrombosis: See under Thrombosis
Cephalalgia: See Headache
Cerebrospinal Fever: See Meningitis
Cerebrum: See Brain
Chang, H. T.: Pressure changes and barotrauma resulting from decompression and recompression in middle ear of monkeys, *378
Chemotherapy: See under names of diseases and chemotherapeutic agents, as Meningitis; Otitis Media; Penicillin; etc.
Chest: See Thorax
Children: See also Infants
antireticular cytotoxic serum in pediatric otolaryngology, *514
electroencephalography in diagnosis of hearing loss in very young child, 629
hoarseness in, *814
home training for preschool deaf children through correspondence, 439
neuro-allergy in childhood, 626
present method of meningitis treatment in childhood, 628
rehabilitation of hard of hearing children; summary of laws and analysis of school testing program in New York State, 125
roentgen therapy for subglottic laryngitis in, 767
speech and hearing program for children in rural area, 439
treatment of sinusitis in, 931
tuberculosis of tonsils in childhood, 932
Choanae: See Nose
Chloramphenicol, Therapy: See Otitis Media
Chloromycetin®, Therapy: See Otitis Media
Cholesteatoma: See also Ear
epidermoid tumors of frontal bone, sinus and orbit, *400
Chordoma, cranial, *237
Christian-Schüller Syndrome: See Schüller-Christian Syndrome
Cinematography: See Moving Pictures
Circling, Compulsive: See Movements
Clayton, S.: Fracture of stomach magnet; unusual and interesting case of fracture of magnet in attempted removal of foreign body from stomach, *616
Cleft Palate: See Palate
Cocaine: See Anesthesia
Cochlea: See Hearing
Cochleogram: See Labyrinth
Colds: See Respiratory Tract, diseases
Communicable Diseases: See Meningitis; etc.
Correction in report by K. Tschlassny entitled "Herpes Zoster Oticus" (51:80 [Jan.] 1950), 438
in report by O. J. Becker, entitled "Surgical Correction of the Abnormally Protruding Ear" (50:541 [Nov.] 1949), 124
Corti's Organ: See Labyrinth
Coryza: See Respiratory Tract, diseases; Rhinitis
Cranium: See also Frontal Bone; Temporal Bone; etc.
cranial chordoma, *237
diagnosis of intracranial lesions by vestibular tests, *831
thrombosis of dural sinuses, 282
Croup, infectious, 447
Cutler, M. H.: Blood pressure changes in fenestration surgery, 632
Cysts: See Face; Mediastinum

Dacryocystitis: See Lacrimal Organs
Dacryocystorhinostomy: See Lacrimal Organs
Day, L. A.: Endolymphatic hydrops without vertigo; its differential diagnosis and treatment, *557
Deafness: See also Ear; Hearing; Otitis Media; Otosclerosis; etc.
American Hearing Society scholarship for students of lip reading, 438
bone conduction in otosclerosis, *485
chronic progressive, including otosclerosis and diseases of inner ear; review of 1947 literature, *422

Deafness—Continued
clinical studies with parenteral vitamin A therapy in, 764
conservation of hearing program in New York State, 126
endolymphatic hydrops without vertigo: its differential diagnosis and treatment, *557
experiences with histamine in treatment of nerve deafness, 302
following trauma to head; clinical and experimental study, 946
hard of hearing program in public schools of Pennsylvania, 936
histamine in treatment of certain types of headache and vertigo following fenestration operation, *781
histologic picture of inherited nerve deafness in man and animals, *852
home training for preschool deaf children through correspondence, 439
inner ear deafness of sudden onset, 939
miscellaneous contributions on causes and treatment, *433
plight of nerve-deaf patient; uselessness of all present therapy; practical usefulness of aural rehabilitation, *1
prevention of, *42
psychogenic; special techniques for diagnosis and treatment of, 621
rehabilitation of hard of hearing children; summary of laws and analysis of school testing program in New York State, 125
selection of patients for fenestration surgery, *707
study of relationship between measured hearing loss and intelligibility of selected words, 274
study of relationship between speech thresholds and audiometric results in perception deafness, 274
Tests: See Hearing, tests
Dehydration; allergy of ear, with classification and new treatment of labyrinthine hydrops by dehydration, *582
De Lisa, D. A.: Tumor of glomus jugularis, *925
Demerol®; untoward effects of newer drugs, 285
Derlacki, E. L.: Chronic progressive deafness, including otosclerosis and diseases of inner ear; review of 1947 literature, *422
Diathermy; heating of human maxillary sinus by microwaves, *678
Digestive System: See Stomach; etc.
Dimenhydrinate, Therapy: See Movements; Vertigo, aural
Dintenfass, A.: Allergy of ear, with classification and new treatment of labyrinthine hydrops by dehydration, *582
Diphenhydramine; untoward effects of newer drugs, 285
Diphtheria carriers, tonsillectomy in, 766
Diplegia: See Paralysis
Directory of otolaryngologic societies, 148, 306, 464, 640, 780, 948
Dixon, F.: Changes in nasal mucosa following laryngectomy, 454
Dizziness: See Vertigo
Doane, J. C.: An internist looks at specialism, 453
Dramamine, Therapy: See Movements; Vertigo, aural
Dropsy: See Labyrinth
Drugs; untoward effects of newer drugs, 285
Duel-Ballance Operation: See Paralysis, facial
Duodenum, Ulcer: See Peptic Ulcer
Dysart, B. R.: Otitis media and complications, *106
Dysarthria: See Speech
Dysphonia: See Speech; Voice

Ear: See also Deafness; Hearing; and under names of special structures, i. e., Labyrinth; Mastoid; etc.
allergy, with classification and new treatment of labyrinthine hydrops by dehydration, *582
Ear—Continued
carcinoma of, *724
cholesteatoma, *116
diagnosis of intracranial lesions by vestibular tests, *831
Discharge: See Otitis Media
Diseases: See Meningitis; Otitis Media; Otosclerosis; etc.
diseases; antibiotics in treatment of diseases of ear, nose, and throat, 932
endolymphatic hydrops without vertigo; its differential diagnosis and treatment, *557
Fistula: See Fistula
internal; chronic progressive deafness, including otosclerosis and diseases of inner ear, *422
function of ear in health and disease; sound motion picture, 138
histopathological investigation on localization, number, activity and extent of otosclerotic foci, 273
importance of allergy in ear, nose and throat conditions, 131
influence of electric punch card machines on human ear, *215
Middle: See also Otitis Media; Vertigo, aural
middle; pressure changes and barotrauma resulting from decompression and recompression in middle ear of monkeys, *378
otitis externa granulosa, 127
penicillin in treatment of diseases of ear, nose and throat, 132
psychosomatic aspects of diseases of ear, nose, and throat, 769
refinements in plastic surgery of nose and ear, 443
Sclerosis: See Otosclerosis
stenosis of external auditory canal, *104
threshold of feeling in fenestrated ear, *667
transtympanic technic in surgical otology; transtympanic postscripts, *356
Tuberculosis: See also Otitis Media
tuberculosis of mastoid and middle ear, *121
use of roentgen rays in small dosages for relief of pain in inflammations of external ear, 622
Edema: See under names of organs and regions, as Larynx; etc.
Education; home study courses of American Academy of Ophthalmology and Otolaryngology, 763
postgraduate course in basic otolaryngology offered by University of Illinois College of Medicine, department of otolaryngology, 935
Electroencephalography: See Brain, electroencephalography
Elfman, L. K.: Thrombosis of cavernous sinus; new evaluation and report of case with recovery, *188
Embolism: See Thrombosis
Emerson, E. B., Jr.: Method of preserving foreign body specimens recovered by endoscopy, *761
Emotions; personality characteristic and emotional problems in stutterers under age of 5, 626
Empyema, acute subdural, secondary to frontal sinusitis; report of case with recovery, *535
Encephalitis, *117
Encephalography: See under Brain
Endoscopy: See also Bronchoscopy
anesthesia in, 132
method of preserving foreign body specimens recovered by endoscopy, *761
Eosinophilia: Hand-Schüller-Christian disease and eosinophilic granuloma of skull, 444
Epiglottis, cancer, 279
carcinoma treated by surgical excision with operative technic, 285
Epipharynx: See Nasopharynx
Epistaxis: See Nose, hemorrhage
Epithelium; oncocyte in nasal mucous membrane; study of unusual epithelial cell, *223

Eraner, M. S.: Masking and shadow hearing in bone conduction, *809
Threshold of feeling in fenestrated ear, *667
Esmond, W. G.: Forced circling movements (adversive syndrome); correction with dimenhydrinate ("dramamine"), *672
Esophagitis: See under Esophagus
Fistula: See Fistula
cardiospasm with thoracic stomach and congenital shortening of esophagus, *102
caustic stenosis of, 441
gastric resection for esophagitis and stricture of acid-peptic origin, 771
perforation by foreign bodies, 441
results of radiation therapy and late changes in malignant tumors of upper respiratory tract and of esophagus, 278
stenosis due to caustics, 935
stricture, associated with operation for duodenal ulcer, *165
Ethmoid Sinus: See also Sinuses, Nasal
mucocele of frontal and ethmoid sinuses; evaluation of use of acrylics and tantalum in surgical treatment, *172
origin and treatment of osteomas of paranasal sinuses, *750
Eustachian Tube, foreign body in; report of case, 622
Extremities, paralysis; question of paraplegia after lumbar application of penicillin, 449
Eyes, accommodation and refraction; effect of rhinoplasty on refractive error, 279

Face, Abnormalities: See Harelip
congenital cyst of face and neck, 772
dermal grafts for correction of facial defects, 448
facial clefts and their surgical management in view of recent research, 448
Paralysis: See Paralysis, facial
transantral approach for excision of sphenopalatine ganglion for intractable facial pain, *891
Fenestration: See Deafness; Otosclerosis
Fever, Cerebrospinal: See Meningitis
Fistula; auris congenita, *245
diagnosis and treatment of atresia of esophagus and tracheo-esophageal fistula, 934
tracheoesophageal and congenital atresia, 768
Fomon, S.: Collapsed ala; pathologic physiology and management, *465
Food: See also Vitamins
allergy, as cause of myalgia of posterior cervical muscles, 294
Foreign Bodies: See also Eustachian Tube
fracture of stomach magnet; unusual and interesting case of fracture of magnet in attempted removal of foreign body from stomach, *616
method of preserving foreign body specimens recovered by endoscopy, *761
passage of foreign body (foxtail) through bronchus, lung, pleura and thoracic wall, 627
perforation of esophagus by, 441
Fowler, E. P.: Prevention of deafness, *42
Fractures: See under Temporal Bone; etc.
Fractures: See Temporal Bone
Freeman, J.: Cranial chordoma, *237
Freud, E. D.: Speech rehabilitation of patients with cleft palate, *685
Friedman, E. A.: Acute otitis media due to klebsiella pneumoniae treated with chloramphenicol (chloromycetin®), *420
Frontal Bone; epidermoid tumors of frontal bone, sinus and orbit, *400
localized osteitis fibrosa cystica of; report of case, 143
Frontal Sinus: See also Sinuses, Nasal
acute subdural empyema secondary to frontal sinusitis; report of case with recovery, *535
mucocele of; some notes on its aetiology, pathology and diagnosis, 747
Frontal Sinus—Continued
mucocele of frontal and ethmoid sinuses; evaluation of use of acrylics and tantalum in surgical treatment, *172
origin and treatment of osteomas of paranasal sinuses, *750
osteoma of, *316
Fuerste, F., Jr.: Extramedullary plasma cell tumor, *608
Fusospirochetosis; Vincent's angina—treatment with penicillin by atomizer, 449

Galloway, T. C.: Favorable results in bulbar poliomyelitis treated as problem in respiratory obstruction, 773
Gamma Globulin: See Blood, proteins
Ganglion, Sphenopalatine: See Meckel's Ganglion
Gastric Ulcer: See Peptic Ulcer
Gastrointestinal Tract: See Stomach; etc.
Gelfan, S.: Pressure changes and barotrauma resulting from decompression and recompression in middle ear of monkeys, *378
Gibbs, E. L.: Electroencephalography in diagnosis of hearing loss in very young child, 629
Gibbs, F. A.: Electroencephalography in diagnosis of hearing loss in very young child, 629
Gilbert, J. G.: Collapsed ala; pathologic physiology and management, *465
Glomus Jugularis: See Temporal Bone
Glomus Tumors: See Temporal Bone
Glossoplegia: See Tongue, paralysis
Goiter, exophthalmic; surgical decompression of malignant exophthalmos, *325
lingual, 275
Goodyear, H. M.: Hemilaryngectomy; method of maintaining permanent and ample airway, 459
Gradenigo's Syndrome: See Temporal Bone
Graduate Work: See Education
Grafts: See Plastic Surgery
Granuloma; contact ulcer granuloma, 452
eosinophilic, of skull and Hand-Schüller-Christian disease, 444
lethal, of nose, pharynx and larynx, 452
Gray, J. S.: Physiology of respiratory resistance, 773
Griesman, B. L.: Base of nose; anatomy and plastic repair, *541
Grip: See Influenza
Gunshot Wounds: See Wounds
Gutteridge, E.: Cardiospasm with thoracic stomach and congenital shortening of esophagus, *102
Roentgenograms of mediastinal abscess, *272

Hallberg, O. E.: Origin and treatment of osteomas of paranasal sinuses, *750
Hand-Schüller-Christian Syndrome: See Schüller-Christian Syndrome
Harelip, primary closure of, 448
Hay Fever: See also Anaphylaxis and Allergy; Rhinitis
as public health problem, 446
clinical evaluation of new antihistaminic compound (thephorine®), 131
Head: See also Cranium
deafness following trauma to; clinical and experimental study, 940
Headache: See also Migraine
and neuralgia of nasal origin, 133
chronic indurative (cervical myalgic), *198
fold and crypt formation in nasopharynx; anatomic and clinical study, *655
histamine in treatment of certain types of headache and vertigo following fenestration operation, *781
Hearing: See also Deafness
Aids: See Deafness
and speech program for children in rural area, 439
capacity of newborn infant, 765
clinics and community speech, 933
Conservation: See under Deafness

Hearing—Continued
electroencephalography in diagnosis of hearing loss in very young child, 629
formal report of international audiology conference, 288
histologic picture of inherited nerve deafness in man and animals, *852
noise-induced hearing loss, 344
tests; bone conduction through auditory ossicle chain, *641
tests; clinical application of bone conduction audiometry, *798
tests; experimental study of tests for detection of auditory malingering, 275
tests; masking and shadow hearing in bone conduction, *809
tests; rehabilitation of hard of hearing children; summary of laws and analysis of school testing program in New York State, 125
tests; use of speech tests for evaluation of clinical procedures, *786
will noise damage one's hearing? 765
Heine-Medin Disease: See Poliomyelitis
Hematology: See Blood
Hemilaryngectomy: See under Larynx
Hemorrhage: See Nose, hemorrhages; etc.
Hemophilus Influenzae: See Influenza
Hepatitis, Infectious; otologic examination in hepatitis epidemics, 449
Heredity: histologic picture of inherited nerve deafness in man and animals, *852
Herpes zoster oticus (Ramsay Hunt's syndrome), *73
High Frequency Currents: See Diathermy
Hilding, A. C.: Physical laws of mechanism involved in removal of air from respiratory tract under normal and abnormal conditions, 936
Himwich, H. E.: Forced circling movements (adversive syndrome); correction with dimenhydrinate ("dramamine"), *672
Hirsch, O.: Surgical decompression of malignant exophthalmos, *325
Histamine, Antagonists, Therapy: See Respiratory Tract
Histamine, Therapy: See Deafness; Headache
Hoarseness in children, *814
Hoerr, N.: Changes in nasal mucosa following laryngectomy, 454
Horton, B. T.: Endolymphatic hydrops without vertigo; its differential diagnosis and treatment, *557
Hunt Syndrome: See Herpes zoster
Hydrocephalus, otitic, *121
Hydrops: See under Labyrinth
Hypotension: See Blood pressure, low

Idiosyncrasy: See Anaphylaxis and Allergy
Industry; influence of electric punch card machines on human ear, *215
Infantile Paralysis: See Poliomyelitis
Infants: See also Children
acute otitis media in, *110
control of air-borne infections in nursery for young infants, 130
newborn, hearing capacity of, 765
radiologic study of mastoid bone in infants in conjunction with anatomic and pathologic investigations, 439
speech; development of vowel sounds, 768
Infection, air-borne; control in nursery for young infants, 130
Influenza; influenzal laryngitis, 277
vaccine; study of serologic responses and incidence of reactions following subcutaneous and intradermal inoculation, 443
Injections, Intrathecal: See Penicillin
Injuries: See under names of organs and regions
Instruments: See also Apparatus
ear aspirator and injector, *928
nasal speculum for rhinoplastic surgery, 281
new rhinoplastic instrument, 281
Intoxication: See Streptomycin
Iodized Oil; delayed pneumonia and urticaria following bronchography, 931
Irradiation: See Nasopharynx; Roentgen Rays
Irrigation: See under Maxillary Sinus

Jaws; underdevelopment of mandible as side effect of irradiation therapy, 132
Juers, A. L.: Chronic progressive deafness, including otosclerosis and diseases of inner ear; review of 1947 literature, *422
Stenosis of external auditory canal, *104

Kaplan, S.: Cancer of larynx classified in 3 dimensions; aid in management, *696
Mucocele of frontal and ethmoid sinuses; evaluation of use of acrylics and tantalum in surgical treatment, *172
Kettel, K.: Peripheral facial paralysis in fractures of temporal bone; indications for surgical repair of nerve; report of cases in which Ballance and Duel operation was used, *25
Kidneys, Diseases: See Nephritis
King, E. D.: Plastic repair of saddle nose, 459
King, N. E.: Osteoma of frontal sinus, *316
Kos, C. M.: Selection of patients for fenestration surgery, *707

Labyrinth: See also Hearing; Otosclerosis; Vertigo, aural; etc.
allergy of ear, with classification and new treatment of labyrinthine hydrops by dehydration, *582
cochleogram and its clinical application; concluding observations, 307
endolymphatic hydrops without vertigo; its differential diagnosis and treatment, *557
labyrinthitis, *118
Labyrinthitis: See under Labyrinth
Lacrimal Organs; dacryocystorhinostomy; report of 150 cases of dacryocystitis occurring from 1938 to 1947, *83
Laryngectomy: See under Larynx
Laryngitis: See under Larynx
Larynx; acute laryngeal edema in nephritis, 277
bony stenosis of; report of case, 455
cancer, classified in 3 dimensions; aid in management, *696
changes in nasal mucosa following laryngectomy, 454
disturbances of phonation of, 442
hoarseness in children, *814
hemilaryngectomy; method of maintaining permanent and ample airway, 459
influenzal laryngitis, 277
lethal granuloma of nose, pharynx and larynx, 452
management of advanced cancer of, 139
papillomas of, 278
paralysis; treatment of bilateral laryngeal paralysis, 129
recognition and management of malignant tumors of, 298
results of treatment with streptomycin in 85 patients with tuberculous pharyngolaryngitis, 442
roentgen therapy for subglottic laryngitis in children, 767
role of streptomycin in laryngeal tuberculosis, 335
stenosis of, 455
superficial epidermoid carcinoma of, *49
tuberculosis of larynx and tracheobronchial tree (treated with streptomycin), 146
Lateral Sinus, Thrombosis: See Thrombosis
Lawrence, M.: Cochleogram and its clinical application; concluding observations, *307
